

CONT.45 (Table-Fusing machine)

Mini fusing press machine, suitable for little laboratories and for low production. Easy maintenance and low electrical consumption. 220Volt Monophase. 3 Kw/h max consumption.

Double detaching PTFE Antistatic Blades

Special long lasting PTFE Antistatic SEAMLESS belts with Kevlar Tracking cord

Heating System

CONT 45 has a 50 cm heating area length, continuous top and bottom heating ensure a perfect temperature uniformity in all the heating length.

The heating Element

Anodized Aluminium molded extrusion

The heating System

Aluminium heating insert in an aluminium molded extrusion 5 mm tick.

Waistband Fusing Device

This system allow you to fuse trousers waistbands and also other roll to roll parts. This system include also collecting device.

Standard control functions:

- Set/Actual temperature
- On/Off button
- Belt speed in mt/min and seconds
- Auto self Cooling button

Pressure System

HARD

C40 inner core body with vulcanized silicon covers.

1 Vulcanized Silicon Pressure roller
1 Hard Stel body roller.

Applicable on shirt industry and hard interlinings
